

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (currently amended) A seal for an optical unit constituting an automobile indicator or illuminating light, intended to be mounted between the optical unit and a support in which it is inserted, the seal comprising

a sheet of flexible material provided with an internal orifice intended to receive the unit, wherein the sheet of flexible material comprises at least one material with a self-adhesive surface skin formed by extrusion; and

at least one lip with a height greater than the thickness of the sheet of flexible material and perpendicular thereto, wherein said at least one lip is located on at least one edge of said seal[.], and wherein at least one edge of said seal comprises no lip.

2. (previously presented) The seal according to claim 1, which consists of various coextruded materials with different hardnesses.
3. (previously presented) The seal according to claim 1, which consists at least partially of cellular EPDM.
4. (withdrawn) Method of manufacturing a seal according to claim 1, which method consists of producing a strip by extrusion, cutting it into sheets with a dimension equal to that of the seal and cutting out the said internal orifice.
